Advanced Methods in Machine Learning
Homework Submission Guidelines:

General Instructions

1. **Indicate at the top your names, ID numbers and e-mails.**

2. Assignments are to be submitted in a hard-copy fashion to the left most cell in the wooden boxed at floor -1 in Schreiber building.

3. Assignments should be done in groups of up to 3 students.

4. Submit the theory questions and programming assignments (when relevant) clipped together (only one submission).

5. Print (using Word or LaTex) all discussions and plots in the programming assignments. Discussions should be written right after their corresponding plots.

Theoretical Assignments

1. Follow the exercise specifications exactly. Seek clarifications if needed.

2. Your proofs should be both rigorous and clear.

3. You may use anything proved in class.

Practical Assignments

1. Follow the exercise specifications exactly.

2. There is no need to print the code.

3. Make sure your code's folder has the proper read permissions.

4. Some assignments will have skeleton code provided on Moodle.

5. Your code should be readable and well-documented.

6. For each practical assignment there will be specific instructions indicating how to execute the code.
